

Red line/theme/added value for others

For next meeting we both want to have concrete ideas about the Red Line

We talked about:

- money issues
- visualisation (using white board/flipover)
- creating money by putting card in postbox with explanation who we are and what our goals are
- weekly budget for groceries
- using 5 hours every weekend to generate money, preferably without tax

Biking

- biking 2 out of 3 will be 5 out of 7.
- biking with longer intervals. These longer intervals will have no costs. So we want to stay at places with sleeping and food for free, where we can help out/volunteer. These periods can be added on the top of 1 year travel
- target/goal is Kathmandu

Concrete:

- projectmeeting every 2 weeks
- we have to keep on moving and feel progress
- visualising planning (printing A3)
- reaching milestones

Bikes

- finding Santosstore and trials

Using year for money and budget:

- Fase 1 from now till 1st of januari
- Fase 2 from 1st of january till 1st of juli
- Fase 3 from 1st of july till start of journey
  
- possibilities (living smaller/cheaper)
- selling stuff
- making money
